

What is it?

A Rally for Fiscally Conservative Values!

Why?

The federal government is expanding at the fastest rate in the history of America. **Your** tax dollars are being spent to bail out irresponsible homeowners that bought more house than they could afford. Debt is being accumulated in **your** name to fund wasteful projects that, what's left of, the free market doesn't want or need.

Stand with your fellow citizens and taxpayers as Cincinnati joins the Tea Party revolution sweeping the nation to protest the "stimulus," the various bailouts, and the pork in the latest spending bill. The current direction is UNSUSTAINABLE and must be reversed. We must let our elected officials know that we will vote them out of office if they continue.

When and Where?
